Description

Blue pallet box type SB3 with dimensions of 1200 x 1000 mm, featuring flat, smooth inner walls that are easy to clean. The blue SB3 pallet boxes are perfectly stackable with similar pallet boxes, allowing them to seamlessly integrate into an existing pool of pallet boxes. The SB3 is manufactured in one piece with three molded runners. Breakage at these sensitive points is minimized. The SB3 pallet box is stable, impact-resistant, and particularly suitable for heavy-duty use and situations where frequent tilting with a turntable is required. The lower wall panels of the pallet box are extra reinforced to prevent collision damage from forklifts. The blue box is made of 100% new and freeze-resistant material, making it highly suitable for applications in the food industry. There are two standard provisions in the upper edge for placing RFID transponders. These transponders enable tracking and tracing of the box and cargo. The SB3 pallet boxes are equipped with a 1" outlet on one short side and a 2" outlet on one long side.
