Description

Grey pallet box type SB3 with dimensions 1200 x 1000 mm, featuring flat, smooth inner walls that are easy to clean. The grey SB3 pallet boxes are perfectly stackable with similar pallet boxes and can seamlessly integrate into an existing pool of pallet boxes. The SB3 is produced in one piece with four galvanized swivel castors, minimizing breakage in these sensitive areas. The SB3 pallet box is stable, impact-resistant, and ideally suited for intensive use and frequent tilting with a turntable. The lower wall panels of the pallet box are extra reinforced to prevent damage from collisions with forklifts. The grey box is made from 100% new and freeze-resistant material, making it highly suitable for applications in the food industry. The top rim features two standard provisions for placing RFID transponders, enabling tracking and tracing of the box and its contents. The SB3 pallet boxes are equipped with a 1" drainage outlet on one short side and a 2" drainage outlet on one long side.
