Load capacity (kg)	20 kg
--------------------	-------

The stacking bin is provided with a smooth base

Description

A true all-rounder! This plastic stacking crate with a smooth bottom has a practical bin height of 220 mm and can be filled right up to the edge. Thanks to the closed handles, you can make optimal use of the crate's volume. Using a matching lid keeps the contents dust-free and clean. An ideal stacking crate for use in the food industry, in warehouses, or simply for general use. Due to its standardized dimensions, the stacking crate can be stacked with all other Euro crates and can also be perfectly combined with standardized pallets, roll containers, and mobile bases.
