

# Stacking bin- 600x400xH80mm - green

## Product specifications

|                            |                        |
|----------------------------|------------------------|
| Uitwendig (LxBxH)          | 600 × 400 × 80 mm      |
| Inwendig (LxBxH)           | 567 × 367 × 74 mm      |
| Capacity                   | 14 liter               |
| Handles                    | Open                   |
| Sidewalls                  | Perforated             |
| Material                   | HDPE                   |
| Article number             | 30.206.29A.4           |
| Weight (kg)                | 1,01 kg                |
| Temperature range          | -40°C to +70°C         |
| Color                      | Green                  |
| Bottom                     | perforated, reinforced |
| Max. load capacity per box | 15 kg                  |

## Features

Plastic stacking crate in Euro format 600 x 400 mm

Made of high-quality food-grade plastic

Reinforced bottom for extra strength and minimal deflection, even under heavy loads or extreme conditions

Perforated bottom and closed sidewalls

Ideal for applications in the (industrial) food sector, textile industry, hospitality, and bakeries

Compatible without space loss with standardized stacking bins, crates, pallets, mobile bases, and roll containers due to Euro format sizing

## Description

Plastic stacking crate in Euro standard size 600 x 400 mm. The green stacking crate is made of high-quality food-safe plastic and features a reinforced bottom. Even under heavy loads or extreme conditions, the deflection of the bottom is almost negligible. The stacking crate has a perforated bottom and closed side walls. This makes the stacking crate ideal for use in the (industrial) food sector, the textile industry, the hospitality industry, and bakeries. Thanks to the Euro standard dimensions, the stacking crate can be combined with standardized stacking boxes, crates, pallets, mobile bases, and roll containers without wasting space.
