| Bottom | Closed, smooth |
| Colorcode | RAL 7040 |
| Max. plate diameter | 155 |
| Load capacity (kg) | 15 kg |

## Features

The stacking bin is provided with a smooth base

# Description

Stackable container in Euro standard format 400 x 300 mm. The stackable container is completely sealed. Even the handles are closed. Made of food-grade plastic, it is highly suitable for use in the food sector. This stackable container is widely used in event catering and rental, serving as, among other things, a plate tray. Plates with a diameter of up to 155 mm can be placed vertically in the container. The stackable container is easy to handle with integrated handles on both short sides. Due to the Euro standard dimensions, this stackable container perfectly combines with all other Euro standard stackable containers, as well as with standardized pallets, roll containers, and mobile bases.
