Description

The green E2 stacking crate, also known as a meat crate, is an essential tool for the food industry, designed to safely and efficiently store and transport food items. With dimensions of 600 x 400 x H 200 mm, this crate provides ample space for a diverse range of products while remaining manageable.

Made from high-quality, 100% new material, this green E2 stacking crate meets the strictest standards for food safety. Both the closed bottom and closed sidewalls provide optimal protection for stored products, ensuring they are safe from external contaminants and damage during transportation. This guarantees not only the quality and freshness of the products but also ensures compliance with strict hygiene regulations.
