Description

Lidded container made of food-grade plastic. Euro standard size 400 x 300 mm. The grey lidded container features a reinforced bottom and is suitable for heavy-duty use. It is composed of a stacking container with a hinged lid and two snap-slide fasteners. When open, the lid is detachable. Thanks to its standardized dimensions, the container seamlessly integrates with other Euro standard stacking containers, as well as standardized pallets, roll cages, and dollies without wasted space. The container is also stackable with its lid. The snap-slide fasteners ensure a secure closure of the lidded container while being easily reopened. The lockable lid prevents loss, damage, or contamination of the load during transport.
