Description

Stacking bin with lid made of food-grade plastic. Euro standard size 400 x 300 mm. The yellow lid container has a reinforced bottom and is suitable for heavy loads. The lid container is composed of a stacking container with a hinged lid and two snap-slide closures. In the open position, the lid is removable. Due to the standardized dimensions, the container can be perfectly and without space loss combined with other Euro standard stacking containers, as well as with standardized pallets, roll cages, and dollies. The container is also stackable with the lid. The snap-slide closures ensure a secure seal of the lid container and easy reopening. The lockable lid prevents the cargo from getting lost, damaged, or contaminated during transport.
