Description

Stacking bin with lid in Euro standard size 400 x 300 mm. The container is equipped with a hinged lid with two snap-slide closures. The lid is removable when in the open position. The lidded container has a reinforced diamond bottom, making it suitable for heavier loads. The container is also stackable with the lid. Due to the Euro standard dimensions, the plastic lidded container is perfectly combinable with other Euro standard stacking containers, pallets, and mobile bases. The snap-slide closures ensure a secure closure of the lidded container, and it can be easily opened. The lockable lid prevents the load from getting lost, damaged, or contaminated during transport. We supply foam interiors, seals, and label holders as accessories for the lidded containers.
