Description

Stacking bin with lid in Euro norm size 400 x 300 mm. The container comes with a hinged lid equipped with two snap-lock closures. The lid is removable when in the open position. The lid container features a reinforced grid bottom, making it suitable for heavier loads. The container is stackable even with the lid. Thanks to its Euro norm dimensions, this plastic lid container can perfectly integrate with other Euro norm stacking containers, pallets, and mobile bases. The snap-lock closures ensure a secure closure of the lid container, which can be easily opened again. The lockable lid prevents loss, damage, or contamination of the cargo during transport. We supply foam interiors, seals, and label holders as accessories for the lid containers.
