Description

Stacking bin with lid measuring 600 x 400 x H190 mm is a Euro standard stacking container equipped with a hinged lid featuring snap-slide closures. The lid container has a smooth, enclosed bottom and closed sidewalls. The plastic lid is removable when in an open state. The lid can be easily opened with the two snap-slide closures. The lockable lid prevents the cargo from getting lost, damaged, or contaminated during transport. Due to standardized dimensions, the lid container can be stacked with other Euro containers, both with and without lids. Additionally, the lid container perfectly combines with standardized pallets, bases, and roll containers without any loss of space. We provide foam interiors, seals, and label holders as accessories for the lid containers.
