Description

Black plastic lidded container in Euro norm size 600 x 400 mm. The container consists of a stacking bin, hinged lid, and two snap-slide closures. The lidded container is entirely closed, including the handles. The bottom features reinforced rib construction, making it highly suitable for heavy-duty applications. Due to its Euro norm size, this lidded container perfectly integrates with all other Euro containers, standardized pallets, mobile bases, and rolling containers. Additionally, it can be stacked with the lid. The snap-slide closures ensure a secure seal for the lidded container while allowing easy reopening. The lockable lid prevents loss, damage, or contamination of the cargo during transportation.
