Description

Blue plastic stacking bin with lid in Euro standard size 600 x 400 mm. The container consists of a stacking crate, hinged lid, and two snap-slide closures. The lidded container is completely closed, including the handles. The bottom features a reinforced rib construction, making it highly suitable for heavy-duty applications. Due to its Euro standard size, this lidded container can be perfectly combined with all other Euro containers, as well as standardized pallets, mobile bases, and roll containers. Additionally, the container is stackable even with the lid. The snap-slide closures ensure secure sealing of the lidded container, making it easy to close and reopen. The lockable lid prevents the load from getting lost, damaged, or contaminated during transport.
