Description

Red stacking bin with lid in Euro norm format 600 x 400 mm. The container is composed of a stacking box, hinged lid, and two snap-slide locks. The lidded container is entirely closed. Even the handles are sealed. The bottom features a reinforced rib construction, making the lidded container highly suitable for heavy-duty applications. Due to the Euro norm format, the lidded container perfectly combines with all other Euro containers and also with standardized pallets, mobile bases, and roll cages. Additionally, the container is stackable with its lid. The snap-slide locks ensure a secure closure of the lidded container while being easy to open again. The lockable lid prevents the cargo from getting lost, damaged, or contaminated during transportation.
