Description

Plastic stackable crate in Euro norm format 600 x 400 mm with a height including a reinforced bottom of 198 mm. Highly durable stackable crate with coarsely perforated side walls and bottom. Equipped with four open handles. The bottom is additionally reinforced; even under heavy loads and extreme conditions, the deformation is almost negligible. The robust stackable crate is versatile and possesses all the qualities for trouble-free application in the (industrial) food sector, the textile industry, hospitality, and in bakeries. The stackable crate made of food-grade plastic has a stable construction. Additionally, due to its Euro norm dimensions, the stackable crate is perfectly combinable with standardized stackable bins, crates, pallets, roll containers, and mobile bases.
