Pallet quantity	64

Features

- **Perforated crate with open handles**
- **Equipped with integrated label holders on both long sides**
- **Ideal crate for storing or transporting smaller items, including food**

Description

Stacking crate / bike crate 400 x 300 mm in gray. The bottom of this robust crate is reinforced. It can hold many items. Even with heavy loads, the bottom hardly bends. The bike crate is 272 mm high and has a capacity of 26.3 liters. Therefore, it is also suitable for children's bikes. Due to the plastic material, the bike crate is much lighter than steel, wooden, or wicker bike crates. It makes cycling and steering more pleasant. Also, a plastic bike crate is more weather-resistant than other crates. The stacking crate is made of food-grade plastic and has finely perforated side walls and bottom. You can easily attach the bike crate to the carrier rack using cable ties.
