Description

The containers from the TELLUS series are extremely practical and efficient to use. With dimensions of 600 x 400 x H 120 mm and a capacity of 20 liters, they are perfectly suitable for various purposes. These containers are designed to be stacked and nested, making them easy to store and saving space when not in use.
They are specially developed for use with food and feature a closed bottom and side walls, along with two robustly closed handles shaped like bowls. These unique handles not only ensure a secure grip but also contribute to easy transportation, even when the containers are fully loaded.
Thanks to the closed handles, the containers can be filled to the brim without wasting space, providing optimal storage capacity. Whether it's organizing stocks in a warehouse or storing food in a professional kitchen, the TELLUS containers offer an excellent solution for various storage needs. They are not only functional but also durable and versatile in various environments.
