Description

The TELLUS series presents a versatile solution with its stackable and nestable containers, measuring 600 x 400 x H 350 mm with a capacity of 66 liters. These containers are designed for optimal functionality and flexibility. Their food-safe construction, featuring closed bottoms, side walls, and two closed bowl handles, ensures the safe storage of food items.

The use of closed handles not only ensures a secure grip but also contributes to maximizing the capacity of the containers from the TELLUS series. Whether efficiently stacked or neatly nested when not in use, these containers prove to be space-saving and practical. Their adaptability makes them ideal for various applications, from industrial storage to the safekeeping of food, ensuring the contents remain secure and well-contained.

The TELLUS series offers reliable solutions that combine functionality and safety, making them valuable storage solutions for different sectors.
