

Stacking nestable crate - Euronorm - 600 x 400 x H 150 mm - black

Product specifications Features

Uitwendig (LxBxH) 600 x 400 x 150 mm

Inwendig (LxBxH) 540 x 342 x 138 mm

Handles Open (two openings)

Sidewalls Perforated

Material HDPE

Article number 30.815.12

Weight (kg) 1,51 kg

Temperature range -30°C to +80°C

Color Black

Bottom Perforated, reinforced

Very good support and centring when the bins are stacked

Bins do not slide apart when stacked

Bins and stackable and nestable by rotating a half turn

Description

The COMBI crate, a stack-nestable Euronorm crate measuring 600 x 400 x H 150 mm and with a capacity of 26.8 liters, offers a fully perforated design. This crate is designed to be stackable and nestable, featuring two open handles for easy handling.

The remarkable feature of the COMBI crate is its exceptional stability and safety during stacking. This is achieved as the crate firmly rests on all four sides of the underlying container. The utilized stacking lugs play a crucial role; they ensure precise centering of the crate and are highly resistant to impacts.

An additional benefit of the COMBI crate is its precise sizing, preventing jamming when nested. This allows for easy stacking without any issues.

These versatile crates find their main application in the intensive (poultry) meat sector. Their reliability and features make them essential for the logistical, storage, and transportation needs within this sector.
