Article number: A-89007-RVS-VI

Stainless steel fish box trolley

Product specifications

Uitwendig (LxBxH)	790 × 400 × 165 mm
Article number	A-89007-RVS-VI
Weight (kg)	6 kg

Features

- **The trolley is provided with six Ø 125 mm nylon rigid casters; to prevent accidents, no swivel castors are used**
- **Because two rigid casters extend lower down, the trolley may be rotated on its own axis**
- **Stainless steel trolleys may be stacked without problems; the recesses for the lowered rigid caster make safe stacking of the trolleys possible**

Description

Dolly / mobile base (790 x 400 x H 165 mm) entirely in stainless steel. Suitable for fish crates of 60 liters and 35 liters: see "Related products". Extremely robustly constructed. The bases can be stacked together without any problems. Equipped with 6 nylon fixed casters Ø 125 mm, of which 2 are mounted lower. This makes the base particularly maneuverable and even rotatable around its own axis; without installing swivel casters. Issues caused by jammed swivel casters are thus a thing of the past. The load capacity is: 300 kg. Low-maintenance dolly for the intensive food sector.
