Stainless steel pull rod with wheel for fish crate 25 and 40 kg

Product specifications

Material	Stainless steel
Article number	94.110.115

Description

The stainless steel pull rod with wheel is a durable and robust tool, specifically designed for fish crates of 25 and 40 kg. Made of high-quality stainless steel, this pull rod offers excellent resistance to corrosion and wear. The integrated wheel ensures easy and effortless transport, making it ideal for daily use in the fishing and food industries. This pull rod makes moving heavy fish crates efficient and ergonomically responsible.
