Transport bin 210 litre - green

Product specifications

Uitwendig (LxBxH)	790 × 605 × 685 mm
Inwendig (LxBxH)	725 × 540 × 575 mm
Capacity	210 liter
Color	Green
Sidewalls	Closed, smooth
Material	Recycled HDPE
Article number	81021520
Weight (kg)	8,9 kg
Temperature range	-30°C to +40°C / Briefly to +90°C
Bottom	Closed, smooth
European Article Number	7,4249E+12
Pallet quantity	13

Features

- **Universal transport bins are provided with outlet opening with screw plug (19 mm).**
- **With galvanised rim reinforcement in the upper rim (long sides).**
- **With thickened wall on one short side for mounting accessories (ball valve etc.).**
- **The transport bins are nestable.**

Description

The highly impact-resistant large volume bin in green comes with galvanized edge reinforcement. The green plastic transport container, measuring 790 x 605 x H685mm with a capacity of 210 liters, stands on four legs and features galvanized edge reinforcement on the long sides. The green transport containers are slightly conical, making them nestable. The walls and the bottom of the plastic container are completely closed and exceptionally smooth, without external rib structures. Thanks to the use of high-quality HDPE, the green bins are particularly resistant to impact and shock. The bin is standardly equipped with a drain opening with a twist stop (19 mm) and wall thickening on one short side for mounting accessories such as a ball valve, etc. The green bins are particularly easy to clean and are mainly used when good hygiene is important, and they are also highly suitable for use as rainwater tanks.
