| Capacity | 210 liter |
| Color | Grey |
| Sidewalls | Closed, smooth |
| Material | Recycled HDPE |
| Article number | 81021830 |
| Weight (kg) | 8,9 kg |
| Temperature range | -30°C to +40°C / briefly to +90°C |
| Bottom | Closed, smooth |
| Pallet quantity | 16 |

## Features

- **Universal transport bins are provided with outlet opening with screw plug (19 mm).**
- **With galvanised rim reinforcement in the upper rim (long sides).**
- **With thickened wall on one short side for mounting accessories (ball valve etc.).**
- **The transport bins are nestable.**

## Description

The highly impact-resistant large-volume grey bin is equipped with galvanized edge reinforcement. The grey plastic transport container, measuring 790 x 605 x H685mm and holding 210 liters, stands on four legs and has galvanized edge reinforcement on its long sides. The grey transport containers are slightly conical, allowing them to nest. The walls and bottom of the plastic container are entirely closed and exceptionally smooth, without external rib structures. By using high-quality HDPE, the grey bins are particularly resistant to impacts and shocks. The bin is standardly equipped with a drain opening with a twist stop (19 mm) and wall thickening on one short side for mounting accessories such as a ball valve, etc. The grey bins are particularly easy to clean.
