Transport bin 400 litre - green

Product specifications

Uitwendig (LxBxH)	945 × 725 × 830 mm
Inwendig (LxBxH)	875 × 695 × 705 mm
Capacity	400 liter
Color	Green
Sidewalls	Closed, smooth
Material	Recycled HDPE
Article number	81011520
Weight (kg)	17,4 kg
Temperature range	-30°C to +40°C, briefly to +90°C
Bottom	Closed, smooth
Pallet quantity	8

Features

- **Universal transport bins are provided with outlet opening with screw plug (19 mm).**
- **With galvanised rim reinforcement in the upper rim (long sides).**
- **With thickened wall on one short side for mounting accessories (ball valve etc.).**
- **The transport bins are nestable.**

Description

The highly impact-resistant large volume bin in green comes with a galvanized edge reinforcement. The green plastic transport container, measuring 945 x 725 x H830mm and with a capacity of 400 liters, is supported by four legs and features galvanized edge reinforcement on its long sides. The green transport containers are slightly conical, making them nestable. The walls and the bottom of the plastic container are entirely closed and exceptionally smooth, without any external rib structures. Thanks to the use of high-quality HDPE, the green bins are particularly resistant to impact and shocks. The bin comes standard with a drain opening with a rotary stop (19 mm) and wall thickening on one short side for the installation of accessories such as a ball valve, etc. The green bins are especially easy to clean and are primarily used when good hygiene is essential. Additionally, they are highly suitable for use as rainwater tanks.
