Transport bin 400 litre - grey

Product specifications

Uitwendig (LxBxH)	945 × 725 × 830 mm
Inwendig (LxBxH)	875 × 695 × 705 mm
Capacity	400 liter
Color	Grey
Sidewalls	Closed, smooth
Material	Recycled HDPE
Article number	81011830
Weight (kg)	17,4 kg
Temperature range	-30°C to +40°C / briefly to +90°C
Bottom	Closed, smooth
European Article Number	7,4249E+12
Pallet quantity	8

Features

- **Universal transport bins are provided with outlet opening with screw plug (19 mm).**
- **With galvanised rim reinforcement in the upper rim (long sides).**
- **With thickened wall on one short side for mounting accessories (ball valve etc.).**
- **The transport bins are nestable.**

Description

The highly impact-resistant large-volume container in grey comes with galvanized edge reinforcement. The grey plastic transport container, measuring 945 x 725 x H830mm and holding 400 liters, stands on four legs and features galvanized edge reinforcement on the long sides. The grey transport containers are slightly conical, making them nestable. The walls and the bottom of the plastic container are fully enclosed and exceptionally smooth, without external rib structures. Thanks to the use of high-quality HDPE, the grey bins are particularly resistant to impact and shocks. The container is standardly equipped with a drain opening with a twist stop (19 mm) and wall thickening on one short side for mounting accessories like a ball valve, etc. Grey containers are particularly easy to clean and are primarily used when good hygiene is essential, also being highly suitable for use as a rainwater tank.
