Description

Mobile plastic waste container 340 liters. The waste container is entirely smooth-walled, preventing waste and dirt from sticking inside during emptying. Equipped with a solid steel axle and two wheels Ø 200 mm with a plastic rim and rubber tread. The waste container features a flat, hinged lid. The 360-liter waste container is heavily durable due to the reinforced body and wheel attachment. It has a maximum fill weight of 110 kg. Additionally, the waste container is EN 840 certified, making it suitable for emptying with the emptying system according to DIN EN 840. Manufactured from impact-resistant and chemical-resistant plastic, resistant to acid, weather conditions, and UV radiation.
