Material	Recycled HDPE
Article number	81371710
Weight (kg)	9,2 kg
Pallet quantity	26

Features

The waste container is fitted with two wheels Ø 200 mm, with rubber tread.

The two-wheeled waste container is suitable for emptying at the side of the dustcart.

Description

Plastic container of 80 liters with dimensions of 450 x 515 x H930 mm. The waste container, made of impact-resistant and chemical-resistant plastic, is highly suitable for professional and long-term use. The container body and wheel attachment are reinforced for extreme durability. It has a maximum fill weight of 40 kg. The waste container is equipped with a solid steel axle and two wheels ? 200 mm with a plastic rim and rubber tread. The waste container features a flat, hinged lid. Thanks to its smooth inner walls, dirt does not adhere to the surface, making the waste containers easy to clean. The waste container is EN 840 certified, making it suitable for all types of garbage trucks with an emptying system in accordance with DIN EN 840. The 2-wheel waste container is resistant to acid, weather conditions, and UV radiation.
