Maximum glass height	72

Features

- **The universal basket is suitable for mixed loading with glassware and dishes.**
- **Clixrack glass baskets ensure safe transport and efficient storage of your glassware and dishes.**
- **The open construction of the baskets ensures optimal rinsing results.**
- **Clixrack offers a wide range of standard compartment dividers.**
- **Custom compartment dividers are also available, with the divider grid increasing by 15 mm increments.**
- **The type of compartment divider for the Clixrack depends on the diameter of the glass. A size chart allows you to easily determine the suitable basket layout. We will send a size chart free of charge upon request.**
- **Once the height and diameter of the glass or dish are determined, provide the information to our product advisors. They will gladly advise on the most optimal configuration.**
- **Clixrack glass baskets have Euro norm dimensions, fitting on mobile stands 600 x 400 mm, on roll containers measuring 600 x 800 mm, on Euro pallets 1200 x 800 mm, and on Industry pallets 1200 x 1000 mm.**
- **Clixrack dishwashing baskets can be stacked with most Euro norm stacking containers 600 x 400 mm. Stacking containers 400 x 300 mm can be stacked on Clixrack baskets.**
- **Clixrack baskets have 4-sided receptacles for color clips, intended for indicating contents, etc.**
- **Due to the double bottom construction, the dishwashing basket is suitable for use in basket transport machines with transport hooks.**

Description

Clixrack - dishwashing basket (600 x 400 x H 110 mm) - item number 50.CR.600. Suitable for mixed loading with glassware and dishes with a height of up to 72 mm. Clixrack baskets have receptacles for color clips on all 4 sides for labeling or indicating contents. Clixrack baskets are stable and stackable with each other, also with other Euro norm trays and crates. Due to their Euro norm size, they fit perfectly on mobile stands, roll containers, or (plastic) pallets.

Since Clixrack baskets are equipped with suitable plastic dividers, the fragile contents are well-protected. The open construction of the basket ensures optimal rinsing results and a faster drying process.

In summary: cost-effective cleaning, safe transport, and space-saving storage of glass and dishes can now be achieved with one basket.
